

Construct an equilateral triangle for the given side - Compass
Konstrueer 'n gelyksydige driehoek vir die gegewe sy - Passer

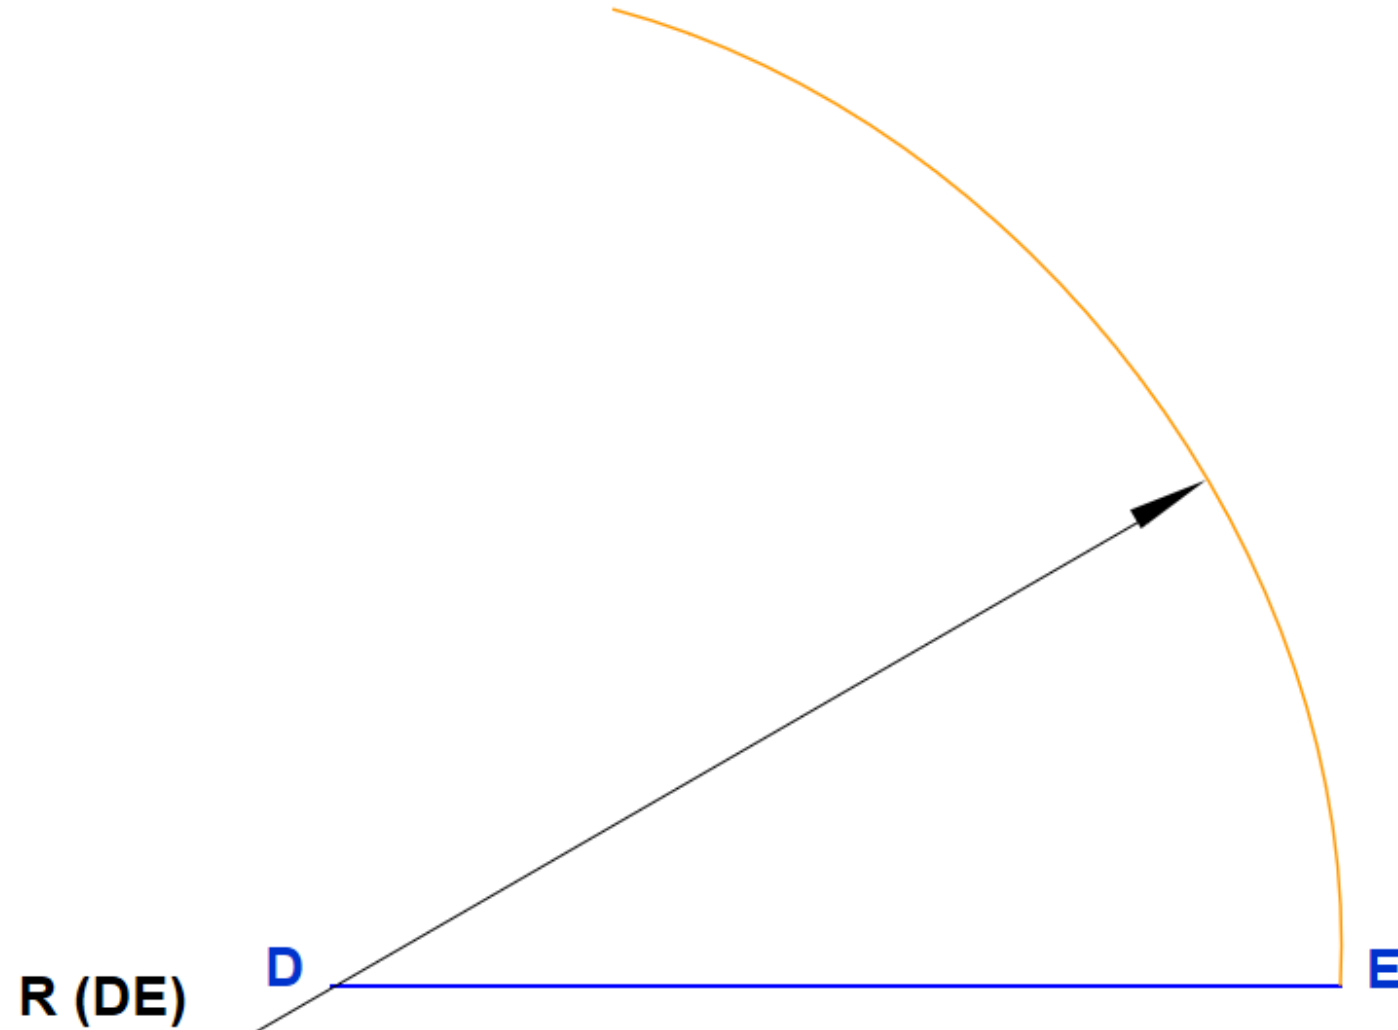

D _____ E

From points D & E and (DE) as radius draw arcs to intersect at point F - Compass

Vanaf punte D & E en (DE) as radius teken boë om mekaar te sny by punt F - Passer

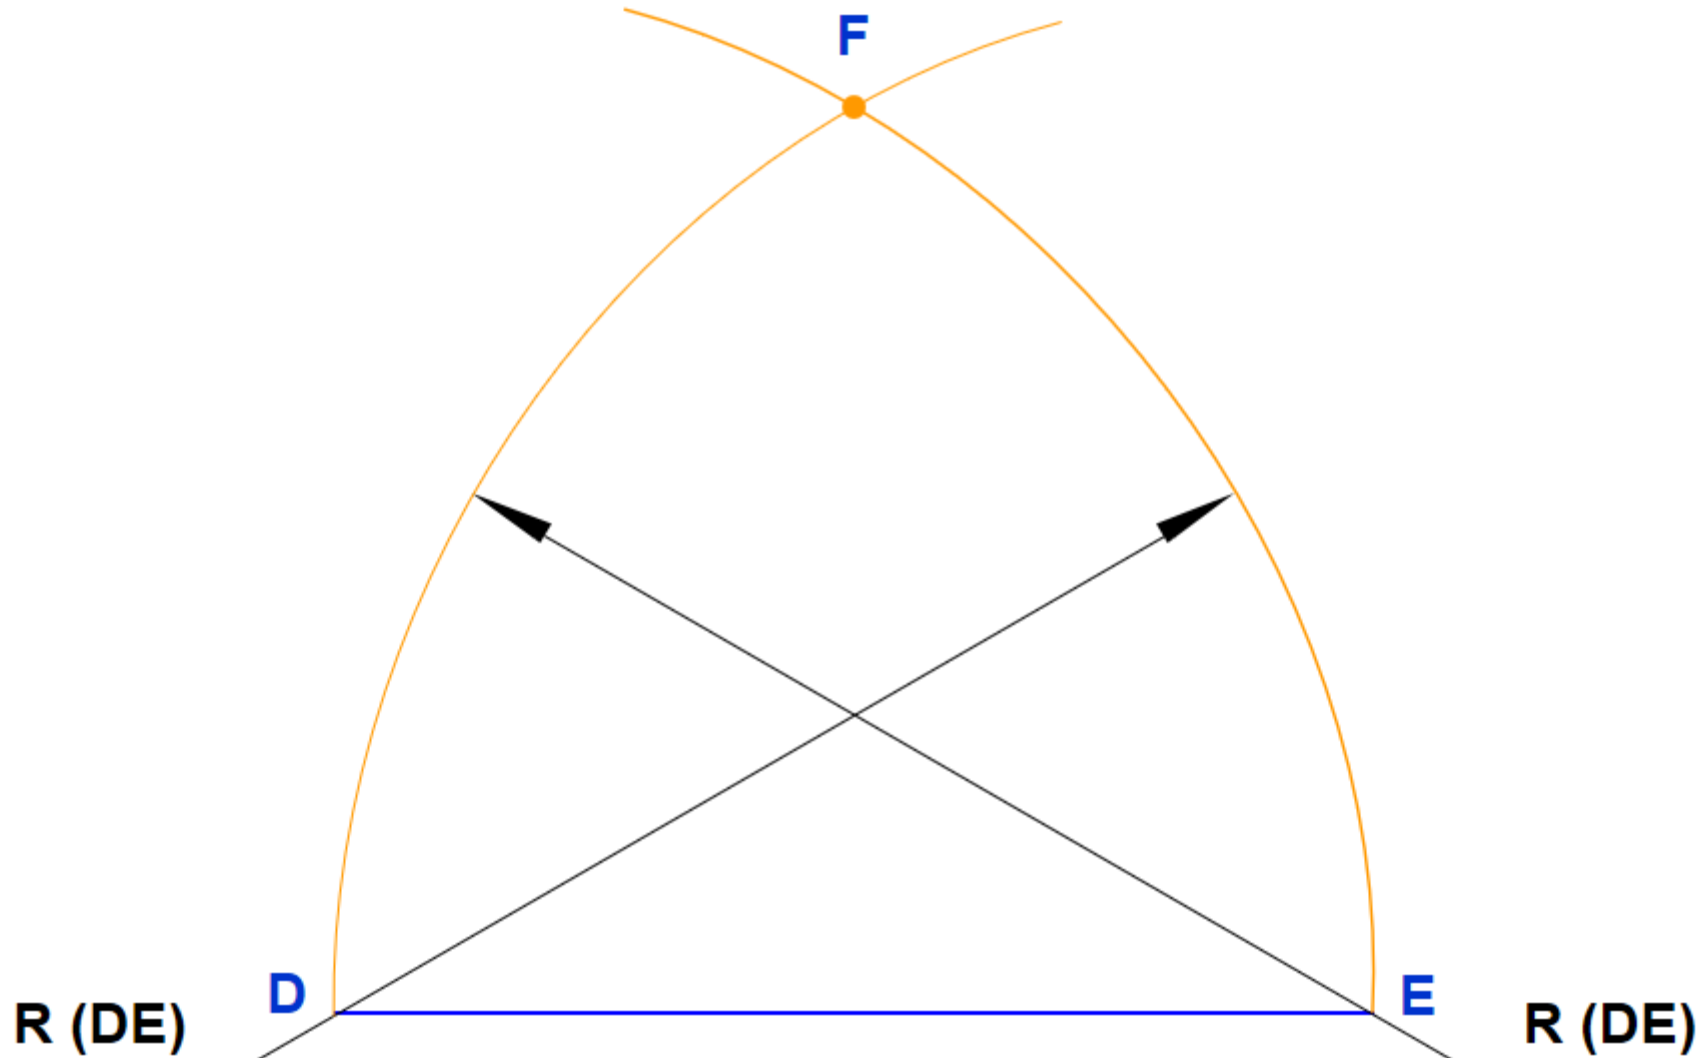

From points D & E and (DE) as radius draw arcs to intersect at point F - Compass

Vanaf punte D & E en (DE) as radius teken boë om mekaar te sny by punt F - Passer

From points D & E and (DE) as radius draw arcs to intersect at point F - Compass

Vanaf punte D & E en (DE) as radius teken boë om mekaar te sny by punt F - Passer

Draw lines DF & EF to complete the triangle
Teken lyne DF & EF om die driehoek te voltooi
